

O experienta completa

Mihai Ungureanu, participant flux 1

Cand m-am inscris in proiectul Erasmus+ „Smart IT” nu mi-as fi imaginat niciodata ca va fi o experienta atat de uluitoare, care sa-mi deschida orizonturile catre web design, un domeniu multidisciplinar care necesita creativitate, pasiune, cunoasterea celor mai noi tehnologii, rabdare si mai ales dorinta de a invata ceva nou in fiecare zi. In cadrul proiectului am participat la o mobilitate de 3 saptamani in Cipru, in orasul Paphos, alaturi de alti 17 elevi de la Colegiul National Gheorghe Vranceanu si de doamnele profesoare Popa Diana si Chelba Maria care au avut grija de noi.

In cadrul mobilitatii am invatat cum sa folosesc diferite programe cum ar fi: Adobe Dreamweaver, Adobe Illustrator si Camtasia, mi-am facut multi prieteni noi si am vizitat locuri pline de cultura. In fiecare zi lucratoare am petrecut 6 ore la compania de primire Lazarou CTC unde tutorele nostru, IT expert-trainer domnul Lazarou, ne-a introdus in tainele web designului (structura si ergonomia unui website, cum se realizeaza CSS-urile, cum se utilizeaza limbajele de programare HTML XHTML, care sunt tendintele in domeniu) si am invatat, in echipa, cum sa cream site-uri web.

Pe plan cultural, in fiecare zi dupa programul de practica de la firma, am vizitat multe monumente si situri arheologice. In prima sambata am fost la Mormintele Regilor, cel mai vechi sit arheologic din Paphos si am putut observa casele de piatra a locuitorilor antici ai Ciprului. De asemenea, am vizitat centrul vechi al orasului care era plin de stradute pavate cu piatra si magazine de suveniruri traditionale. Intr-una din zile ne-am plimbat cu o barca cu fund din sticla prin care am putut vedea o epava unei nave de razboi.

Aceasta mobilitate mi-a dat ocazia sa-mi fac multi prieteni, sa cunosc oameni si locuri. A fost o experienta unica prin care am putut sa ma dezvolt pe plan profesional, social si cultural, si din acest motiv nu o voi uita niciodata. Este experienta de care aveam nevoie pentru a-mi confirma ca domeniul IT este ceea ce ma doarec sa o urmez in viitor.

When I enrolled in this project, I would never have imagined it would be such an astonishing experience. In it, I participated in a mobility in Cyprus, in Paphos with educational purpose. In this mobility, I learned how to use different programs like Adobe Dreamweaver, Adobe Illustrator, and Camtasia, I've made many new friends and visited places full of culture. In almost every day of mobility we were going at the receiving company: Lazarou CTC, where our tutor, Mr. Lazarou, has taught us how to make a website, a site logo and a banner. Mr. Lazarou is a bountiful and understanding person, it was a pleasure to learn from him. In mobility we were accompanied by the teachers Mrs Popa Diana and Chelba Maria who took care of us all the time. This mobility has not helped me only professionally, but also on a social plan, because I had the opportunity to make many new friends during it.

On the cultural side, every day after we left the company, we visited many monuments and archaeological sites. The first Saturday we visited "The Tombs of the Kings," the oldest archaeological site in Paphos where we could see the stone houses of the ancient inhabitants of Cyprus. We also visited the old town, which was full of stone-paved streets and traditional souvenir shops. One day, we took a tour with a glass bottom boat through which we could see a wreck of a warship. This mobility was a unique experience through which I was able to develop myself professionally, socially and culturally, and that is why I will never forget it.
